RESPONSE TO RESTRICTION REQUIREMENT

Sir:

This response is directed to the Office Action mailed on January 23, 2003.
A one month extension of time request is filed concurrently with this response.

In the Office Action, it was requested that the Applicant elect from several different species provided in the Office Action. In this instance, there appears to be no burden in searching and examining the application as presented. The first claim is generic to the species provided in the Office Action.

Nevertheless, Applicant provisionally elects Species A, which is directed to a device including a textile substrate and a coating thereon comprising a repellent finish chemical comprising a fluorochemical, and a cationic material with an absorbent polymer.
